# MILLER

County Commissioner

## MY COMMITMENTS TO WEBER COUNTY:

### **Role of Government**

As a private consultant to local government agencies for the past 23 years, I have a deep understanding of how they function and how our rights as citizens are and should be perceived. Running my small business has given me unique insight into the differences between business and government.

### **Quality of Life**

My love for the area in which we live is substantial. Our area is geographically and demographically unique. I will work as I have for years to preserve and promote more opportunities for our citizens to enjoy this incredible area.

### **Ethics and Standards**

I have a successful business that will continue to thrive, but it is time for me to step away and serve. My ethics and standards will be first and foremost in my decisions.

### **Economic Development**

I am so excited to get involved in economic development. I've noticed that my enthusiasm for our area is contagious. I will promote Weber County to any who will listen. I'm quite certain there is no better place to live or do business! I will work to make Weber a refreshing and business-friendly environment.

### **Unity**

I believe I can bring greater unity to the County Commission and to the member communities of Weber County. I will be patient and compassionate with all opinions. My successful experience with numerous City and County Councils demonstrates my ability to collaborate professionally.

### **Taxation**

I have owned Wasatch Civil Consulting Engineering, Inc. for 20 years. I know how much of an incentive-killer high taxes can be. I also know how to run organizations efficiently and to maximize outcome. I will use that knowledge and my technical skills to help run the County in a cost-efficient manner.

**Mark Miller**

Candidate for Weber County Commissioner, Seat B

# Fighting for the future of our great county!

## **BACKGROUND AND READINESS TO SERVE**

### **My Background**

I have owned a consulting engineering company in Weber County for 20 years, consulting Cities, Counties & Special Service Districts. This has given me an understanding of the inner workings of local governments. I have attended and participated in hundreds of City and County Council meetings and developed a skill set from my education and practical experience that helps me take complex problems, break them down to their fundamental elements, and build a solution, based on consensus.

### **Volunteer**

I have served on the Boys and Girls Club board for over 15 years. Six of those years were in leadership positions on the executive board. We have grown from a handful of youth at one site, to hundreds at numerous sites. I have also served on Weber Pathway's board and executive committee. I currently serve as a trail maintenance leader. I also served on the Trapper Trails Boy Scout Council in Ogden and contributed engineering services to the council while on the board.

I currently serve on a local Irrigation Water Board. After a tragic death in Pineview Reservoir, I committed to getting a safe swim area on the reservoir. It took 7 years, tremendous collaboration, a lot of patience and some wonderfully talented people to finally get the swim area approved and constructed. I was driven by a conviction that the swim area would save lives.

### **Personal**

I am the father of five wonderful children who were all raised in this area. In my spare time I love to mountain bike, hike, run and swim. I have competed for years in endurance races such as the Ogden Marathon and Xterra Triathlon. But my new challenge is to serve effectively as a Weber County Commissioner.

### **Ready to Serve**

I have the time, energy and financial security to dedicate 4 years of hard work to Weber County. The timing could not be better in my life. I have a deep desire to dive into a new challenge and to use my knowledge base and ability to professionally and compassionately serve with no ego or personal agenda.

Mark

**MILLER**

County Commissioner
